

OFF-GRID SECURITY. POWERED BY THE SUN.

Deploy professional-grade surveillance at fixed, remote and evolving sites without relying on permanent power infrastructure.

SOLAR POWERED

STARLINK CONNECTED

SKID MOUNTED

DEPLOY WITH CONFIDENCE

- 01 Off-grid operation**
1,350W solar generation with battery storage.
- 02 Stationary stability**
Steel skid frame supports long-term placement.
- 03 Elevated visibility**
20 ft mast positions cameras above site activity.

BUILT FOR THE PLACES THAT CANNOT WAIT

Spartan combines renewable power, flexible communications and configurable camera coverage in a stationary skid platform built for reliable deployment where infrastructure is limited or unavailable.

CONSTRUCTION

Protect equipment, materials and active work zones.

CRITICAL INFRASTRUCTURE

Maintain visibility across remote fixed assets.

PUBLIC SAFETY

Support events, investigations and perimeter awareness.

INDUSTRIAL SITES

Monitor yards, facilities and perimeter operations.

ONE PLATFORM. YOUR CONFIGURATION.

Select the surveillance and deterrence capabilities that match your site's risk profile, coverage needs and response plan.

REMOTE VISIBILITY THROUGH FORTRESS

Monitor live video through the Fortress Dashboard from virtually anywhere. Centralize camera feeds, unit locations, system health, alerts and recorded events in one operational view.

STARLINK CONNECTIVITY

Integrated Starlink helps deliver reliable connectivity at remote sites where traditional wired service is unavailable.

CONFIGURATION OPTIONS

Configured to your application.

CAMERA COVERAGE

- PTZ
- Multi-lens
- Thermal options

DETERRENCE & AUDIO

- Siren / strobe

PLATFORM CAPABILITIES

- 1,350W solar array
- 11,520Wh battery capacity
- Starlink connectivity
- 20 ft hand-crank mast
